People can be registered automatically when they go to the DMV or OHA but must already submit proof of citizenship to be registered. This bill would pointlessly delay voter registrations for every potential voter; some voters may not be approved in time to vote. It would add an enormous cost and workload to the Secretary of State's office. It makes more sense for the Secretary of State, as he has already said he would do, to work with agencies and election clerks to minimize errors going forward.

This feels like a sledge hammer to Oregon's enviable voter registration laws. I strongly OPPOSE this bill.
