

Submitter: Stacey Holeman

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural
Resources, and Water

Measure, Appointment or Topic: HB3501

HB 3501 appears to be designed to protect the needs of irrigators over all other potential needs for water. Under current drought conditions, this just isn't reasonable or sustainable. It would effectively close down all consideration of the public interest, when someone wants a water rights change or transfer.

I OPPOSE THIS BILL.
