

Submitter: CJ Nugent
On Behalf Of: Nugent Drilling Co. LLC
Committee: House Committee On Labor and Workplace Standards
Measure, Appointment or Topic: HB2548

To whome it may concern.

This is not a needed bill whatsoever. Nobody forces workers to work the hours that these jobs are for. It is a decision made BY THE WORKERS to work there. If they do not like the working conditions, they are able to find another job.

Almost everywhere is hiring to some degree.

As a former grass seed worker (In high school) I learned so many skills working at the farm. While I did not see it as a long term forever job, I did my job well and fully knew what the job description entailed. This Bill will put major burdons on small businesses in this state in a time where they are already being pressed from every angle.

This will put many small farms and businesses out of business, causing less taxes for the State to recieve, and less economic success for the States Future.

I strongly oppose this bill, And your constituents will see this and really have a hard time voting for anyone in this committee that lets this go through.

Thanks for your time.

CJ Nugent.
