To whom it may concern,

My daughter has attended ACA for 5 years. She has attended several public and private school models and by far ACA is the best. The staff cares about all the students and families, they value family input. They are proactive with supporting children to succeed. My experience with drafting IEPs here has been a 180 experience from past public schools it is a positive collaboration of support for my daughter where previous experience was a sea of no. The school is also a socially welcoming place for kids with a variety of interests and outlooks. The school offers a great amount of clubs to get students engaged socially. ACA is the best learning model available for my child with neurodivergent learning and medical conditions and finding ACA 5 years ago remains on my gratitude list daily.
