

Submitter: Darcey Kirkwood

On Behalf Of:

Committee: House Committee On Behavioral Health and Health  
Care

Measure, Appointment or  
Topic: HB2029

To Whom it May Concern,

I support HN2029. I am an LCSW who has been in private practice for almost 6 years. Insurance audits need to have limitations as currently they are under and abusive. I often lay in bed at night worrying that there will be some unreasonable claw back for an unforeseen or unreasonable reason. I should not have to serve the vulnerable populations I work with and spend so much mental energy worrying about this possibility while I try to also take care of my own family and plan for our future.

Please pass this bill.

Thank you for your action,

Darcey Kirkwood
