Measure, Appointment or Topic: HB2548

HB 2548 is not a good bill for farmers. Oregon already regulates farmers in many ways such as OSHA and high minimum wages plus forcing overtime on the workers . Farmers are very intelligent and want to give their employees the best. But over-regulating us is not the answer. Oregon is forcing many good farmers out of business. Free enterprise has always worked. We do not need boards dictating to us what is best. We already will be facing opposition with the new tariffs that will be in place. Oregon has passed many regulations in the past five years that are unnecessary and make farming difficult. Please do not support HB 2548, it is not a good bill.
