Dear Co-chairs and Members of the committee,
I'm writing to express my support for full funding for the private Forest Accord. As a third generation Oregonian, resident of the Coast range, and frequent user of our forests and state lands for recreation for my family, for foraging, and for fishing, I care deeply about ensuring and restoring the health of our forests, fish and wildlife. I am a Certified Wildlife biologist as well, and I understand the importance of this Accord to safeguarding our fish and wildlife populations for future generations. As a mother who often takes my kids fishing, I see this Accord as imperative to ensuring their future access to their natural heritage. Fully funding this Accord will show the federal government that Oregonians care about this deeply, and that it should be approved. This Accord has gone through so many years of collaborations and compromise between all parties, and we must fully fund it to see it through its approval. Thank you for your consideration and for protecting Oregonian's resources for future generations. Sincerely, Shalynn Pack
