

Submitter: Beverlie Woodsong

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3512

These chemicals are known to be carcinogenic and definitely should at the very least be banned from any products such as water supply conduits or food storage containers or toys, et cetera. Actually, the study and science concerning these chemicals is documented and we can not ignore that these chemicals should not be produced or used at all for so many reasons such as those described in the following article:
