Standards

Measure, Appointment or
Topic: HB3838

Oregon is already one of the most regulated states when it comes to Home Care options which drives the cost up for such a vulnerable population. I support regulations that keep standards high and holds individuals accountable but this bill is completely unnecessary. Many will lose access to the care they need if this bill passes. Business' are already choosing to leave Oregon and open in other states due to the current imposed regulations. In the current economic environment this bill could be catastrophic.
