To whom it may concern,

My name is Bailey and I am a new therapist who has just started practicing in Oregon. I am fully in support of House Bill 2029. I believe that insurance and CCO audits are unreasonable and unfair after the 12 month window has ended. These audits have severely hurt Oregon therapists who are doing their absolute best to accurately document their work and serve their fellow Oregonians. I believe this bill will encourage more therapists to contract with insurance companies/OHP and further expand access to mental health care. Thank you for addressing this issue.
