

Submitter: Kathleen Root-Bunten

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or
Topic: HB2029

In a time when so many are feeling increased anxiety and fear with regards to their futures, their ability to meet basic needs such as rent, food, medical care the elected in our community must stand up. We need to be able to be in this moment together in a concrete and meaningful way. This bill will help to remove unreasonable, costly, and restrictive barriers to providing the care our citizens so desperately need.
