

Submitter: Jay Tomlinson
On Behalf Of: Unite Oregon
Committee: Senate Committee On Human Services
Measure, Appointment or Topic: SB611

When I was in school, me and my single mother spent some time on food stamps. If it weren't for access to those funds, I would have gone hungry as a child. Now that I am an adult and in the helping profession, I see several people barred from this life saving program. To be born in another country is no excuse to let our community members who add to our cities immensely go hungry. Everyone should have access to healthy and fresh food. Food for All Oregonians is a logical and ethically correct bill that needs your support.
