

Submitter: Katharine Selah

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB688

As a Portlander, graduate student, and a parent of young children, our electricity bill is consistently a cause of stress. It has gotten exponentially higher over the past few years, and I certainly have not noticed any improvement in service to justify the cost. It is time for us to have performance benchmarks on:

Wildfire prevention & accountability

Clean energy transition

Energy efficiency & affordability

Minimizing power shutoffs

Improved reliability & resilience

Thank you.
