

Submitter: Scott Winkenweder

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3512

As a Red-Blooded Patriot, I am outraged that woke industrial producers can fill up the soil and water of the Great State of Oregon with toxic and dangerous chemicals (PFAs). These practices are DISGUSTING and ANTI-PATRIOTIC. Every Oregonian child deserves a healthy body and brain, and every working American, such as firefighters, farmers, and fishers, should be rewarded by their country for their hard work! They should not be POISONED by industrial runoff from extractive DEI manufacturers working its way into our FISH, our CROPS, and our WATER. Salmon and agriculture are the REASONS that OREGON is GREAT! To allow PFAs to continue to accumulate in this Great State is an affront to God Himself. We were NOT given this land by the CREATOR so that we could turn it into a TRASH HEAP, or so that we could POISON OUR OWN CHILDREN. In the name of the Biblical God who gave us the miracle of life, STOP THE SPREAD OF PFAs! Keep our water and soil CLEAN, so that AMERICAN CHILDREN can thrive! SAVE THE CHILDREN and HONOR GOD by BANNING PFAs NOW!
