

Submitter: Barbara Massey

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB2029

Dear Chairman Nosse and Members of the House Committee on Behavioral Health and Health Care:

My name is Barbara Massey and I am a (LMFT)

I am a therapist in the Medford area of Oregon and have been practicing for 30 years.

I am writing this letter in support of HB2029.

Insurance audits are abusive and unfair and limit access to care to the people of Oregon. Please help stop this practice.

Keeping detailed records of billing/client beyond the seven years required by licensure due to the concern of recoupment at Any time is onerous. The lack of audit requirements leaves the entire record keeping process in limbo. Other states have limitations, its time Oregon joined in a fair practice.

Thank you for supporting this bill.

Sincerely,

Barbara Massey LMFT

Medford
