

Submitter: Angelica Owens

On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB3444

Both my children attend Madrone Trail and we could not be more happy with this school. My son is in Kindergarten, and my daughter has been going since Kindergarten and is now in second grade. The structure of the school and the community of caring educators enrich my kids lives and teach them social skills as well as learning about the world around them through hands-on education. Families are heavily involved in the school in both volunteering and fundraising to make up the difference. This bill would lighten the load tremendously and allow for upgrades and improvements to the facilities. I am strongly in favor of this measure. Thank you for your consideration.
