

Submitter: Natalie Legras

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3453

To the Joint Committee on Transportation:

I live in Portland and have family and friends in the mid and south Willamette valley. I would love a reliable way to visit them for a day trip or overnight that doesn't involve driving through heavy, dangerous traffic on I-5. Furthermore, anyone who doesn't or cannot drive would have the opportunity to commute to or from the Willamette valley for work or play, opening the region up for economic activity.
