On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB1099

There is a shortage of available childcare and preschools in the state of Oregon. Houses of worship often have underutilized space which is available during the weekdays when childcare and preschools are needed most. I support this bill. Let's facilitate the use of houses of worship as a resource to families needing childcare and preschools across Oregon. Let's remove the obstacles and allow childcare to be approved outright as a support and resource to families in Oregon.
