

Submitter: Suni Danforth

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3681

This is a bad bill. We have land use rules for a reason in Oregon, mainly to protect our farmland. We have energy transmission corridors all over the state. Use them and other easements, such as highway and road easements, for transmission lines. Do not ruin our state with power lines criss crossing our state. Protect our farmland for the future generations of Oregonians. I also oppose the use of eminent domain.

I oppose HB3681
