regarding HB 285:I think we are seeing how dangerous the term "domestic terrorism" is in 2025 Trump reality I'm not sure if the exact charge was used to arrest and detain Columbia University grad student Mahmoud Khalil for protesting United States providing weapons including bombs to Israel. This feels like 1950's McCarthyism. i agree with the ACLU assessment that it was a mistake to pass hb2772 using this highly volatile term "domestic terrorism."
