

Submitter: Bridget Redmon

On Behalf Of:

Committee: House Committee On Behavioral Health and Health
Care

Measure, Appointment or
Topic: HB2029

Dear Chairman Nosse and Members of the House Committee on Behavioral Health
and Health Care:

My name is Bridget and I am an LCSW. I am a trauma therapist in Portland, OR.

I am writing this letter in support of HB2029. Insurance audits are abusive and unfair
and limit access to care to the people of Oregon. Please help stop this practice. I
worked at a group practice who managed all the insurance logistics, but when I went
into private practice I opted to not take insurance at all for fear of audits and
clawbacks impacting my income- the gamble was just too much. This limits who I can
serve and support.

Thank you for supporting this bill and thank you for all that you do!

With kindness,

Bridget
