

Submitter:	David Wall
On Behalf Of:	Mr Oregon OPPOSES HB 3609
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB3609

I OPPOSE [HB 3609] with Extreme Prejudice.

[HB 3609] is an attack on existing Power Companies Infrastructure.

[HB 3609] will be used by the Public Utilities Commission (PUC) to set unreasonable criteria for power companies to meet thereby causing unnecessary and unjustified violations.

Distributed Power Plant construction and maintenance-who pays? They will be useful someday but not now. Most people cannot afford them.

Battery Storage Systems are pricey for most homeowners [\$10,000 to \$20,000] or higher depending on the size and complexity of the system. In addition, the Batteries last about [10] years.

There will also be a need for specialized Solar Battery Recycling Businesses. Permitting the aforementioned specialized battery recycling may involve costly siting and permitting costs.

David S. Wall
Mr. Oregon Concurs.
