

Submitter: Simone Helfrich

On Behalf Of:

Committee: Senate Committee On Human Services

Measure, Appointment or Topic: SB611

Having access to food is a basic need for all humans. Access to food should be universal for all people residing in Oregon regardless of background, status, age, ability, etc. I back this legislation and will do what I can to support the measure. I additionally support increasing awareness of any public resources. I am currently working in public health spaces and so many people who could use resources are not aware of what is available to them. I want to support any momentum for more affective outreach and information transfer between health care, housing, and food services. I love my home and it's important we care for one another and protect all people especially those most vulnerable.
