I oppose.

This legislation show how incredibly out-of-touch the Democrat legislators in this Legislative Body are from ordinary, working Oregonians.

#1 There is no "emergency", as this bill falsely claims. An emergency is your house burning down in the middle of the night. Crying chicken little to claim this is some sort of emergency situation destroys the Democrats credibility and is an insult to farm operators, farm managers and farm workers across the state.

#2 These types of socialist-style price controls are reminiscent of some of the countries rom where bill sponsors came from. Respectfully, these type of price controls do not belong in a market economy like the USA. It is grossly inappropriate to empower a government body to impose price controls on small private businesses in the state.

The endless laws and regulations pushed by Oregon Democrats is disgusting and horrible for both small business and workers in this state. More government control goes against our state motto, which is "Alis volat propriis", translated to "She flies with her own wings", which is a reflection of Oregonians' independent spirit. Why have Oregon Democrats gone so far away from this?
