

Submitter: Kate Suisman

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB3512

Chair Lively, Vice-Chair Gamba, and Members of the Committee, I write in my personal capacity to ask you to please take action to make our state safer for my children and all the people who live in Oregon, not to mention the animals, fish, water and air. PFAS are known carcinogens and it's past time we stop their use in Oregon. Thank you.
