Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

This is extremely concerning. Please let common sense prevail and oppose this bill. During this time when the language of terrorism is being used to destroy American democracy, Oregon should be rolling back and not expanding so-called terrorism laws. These laws are ripe for abuse and unnecessary because we already have criminal laws that sanction harm to property. Our state should be a national model in protecting democracy, speech, and protest. Please oppose HB 2851
