Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3786

It's not often that I testify in support of a bill, but I support HB 3786 because I live on the Oregon coast and see first hand, the need to know more about the ocean. Ocean conditions affect me daily. I look forward to the Oregon Ocean Science Trust distributing grants to further study how the ocean is affect by global warming, how marine species can be managed for future sustainability, and how changing ocean conditions impacts coastal infrastructure.

I urge you to support HB 3786. Thank you.
