To all persons involved in this decision I absolutely oppose this bill . I would like to know how many of you have ever farmed for a living. I have been involved with farming all of my life and know what it takes to make a living in this career. I worked at another job all my adult life also and used my income from that many times to pay my bills. It seems to me that whoever dreamed this bill up is trying to put more farmers out of business . Once again you have a definite NO vote from this farmer and taxpayer
