I am writing to express my concerns about Oregon HB 3838. The effects of this bill will lead to increased costs for home health care, forcing business owners to raise rates. This will not only burden patients who rely on these essential services but also negatively impact workers within the industry.

Rather than creating unintended financial strain on both caregivers and patients, I urge you to consider alternative solutions that support the home health care sector without driving up costs.

Thank you for your time and consideration.
