Measure, Appointment or Topic: HB2851

At a time when free speech is under attack by Trump, Elon, and the rest of the Republicans federally, it's shameful that here in Oregon we would help them to further crack down. When everything is terrorism, then nothing is terrorism and all you're left with is a repressed people controlled by fear of speaking truth to power. These vague definitions of terrorism may seem reasonable, but they can easily be used to target peaceful protesters such as the Stop Cop City movement in Atlanta.

No on HB2851! Repeal HB2772!
