

Submitter:	Monique Bochsler
On Behalf Of:	
Committee:	House Committee On Behavioral Health and Health Care
Measure, Appointment or Topic:	HB3817

My name is Monique Bochsler, and I am reaching out to express my support of HB3817.

It is crucial that we assist our veterans. Research from Stanford Medicine has shown that ibogaine, a natural psychoactive substance, can effectively address traumatic brain injuries in special operations military veterans. The findings indicate that ibogaine can lead to significant improvements in depression, anxiety, and overall functioning for those affected. It is essential that we engage in conversations about this topic. This bill represents a positive move forward.

Best regards, Monique Bochsler
