HB2851

I oppose HB2851.

Domestic Terrorism laws are laws that erode our civil liberties. They don't make us safer. They tend to be abused by people to stifle protest and free speech. Currently in our country the Trump administration is defining terrorism as anything they don't like. This is illegal and unconstitutional. HB2851 that expands our domestic terrorism law only helps Trumps plan and makes it easier to define anything that the leadership doesn't like as terrorism. This sounds alarmist, but it is what happens. It is easy to see this when you look at the results and how the law is enforced instead of just what it says.
