

Submitter: Lydia Evans

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB2029

Dear Chairman Nosse and Members of the House Committee on Behavioral Health and Health Care:

My name is Lydia Evans and I am a MFT graduate intern. I practice in a rural community outside Oregon City and I have been seeing clients for a year as I finish my degree.

I am writing this letter in support of HB2029. Insurance audits are abusive and unfair and limit access to care to the people of Oregon. Please help stop this practice.

I know many therapists who hesitate to contract with insurance, due to the lack of rights they have. This limits access to people who need care.

Thank you for supporting this bill.

Sincerely,

Lydia Evans
