

Submitter: Danny Noonan

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB2851

The original law that this bill would amend, passed two years ago, was already overly broad, and continues to have the potential to be weaponized against legitimate, non-violent protest actions. This bill would expand the scope of that law. Particularly in the present circumstances, with an openly authoritarian federal government actively targeting protesters, this law ought to be repealed in its entirety. I personally strongly oppose this bill.
