Measure, Appointment or Topic: HB2851

I have serious concerns regarding House Bill 2851 and the -1 Amendment. I oppose this bill.

During this time when the language of terrorism is being used to destroy American democracy, Oregon should be rolling back and not expanding so-called terrorism laws. These laws are ripe for abuse and unnecessary because we already have criminal laws that sanction harm to property.

Our state should be a national model in protecting democracy, speech, and protest.
