

Submitter: Keith Bentley

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

Unless there reasonable training established and available, and the permitting process is in place right from the start of implementation this will cause an unreasonable delay in purchasing a gun, violating a citizens 2nd amendment right. I consider and feel strongly that the permit requirement is unreasonable and infringement in itself. The magazine capacity restrictions are unreasonable as well what you are labeling high capacity is in reality standard capacity.
