

Submitter: Robert Powell

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I am a retired law enforcement officer and HB 3057 will require a class you cannot get, to ask for a permit that will cost a lot of money and take months to receive, even if you could get the class. We can't even enforce all the laws that are already on the books and now you want to add more! If you increased funding for police to enforce current laws and provided mental health programs to work with those Oregonian's at risk of violent behavior, we just might see some change.

HB 3075 is a waste of taxpayers and law enforcement time and money. I oppose it!
