

Submitter: Blake Tomlinson
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075
Committee Members for HB 3075:

I am strongly opposed to HB 3075. Like BM114, this legislation will only negatively impact law-abiding citizens who are not the problem with gun violence in Oregon. I have never had a parking ticket, and yet overnight my 32 years of competent and legal firearms experience, concealed carry preferences and related firearms investments will suddenly be criminalized or heavily restricted overnight. Gun violence in Oregon primarily occurs within groups of already prohibited persons fighting over gang territory or drug related conflicts. These individuals are currently not allowed to own or possess firearms, and will certainly not comply with anything related to BM114 or HB 3075. This radical legislation is only punishing those of us who are the most likely never to be at the heart of what is really happening with gun violence in Oregon. Let common sense prevail. Please stop HB3075 from moving forward, and spend your efforts on more realistic and relevant gun crime prevention.

Respectfully,
Blake Tomlinson
Retired Battalion Chief
