

Submitter: Andrea Reisman

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3512

Dear Chair Lively, Vice-Chair Gamba, and Members of the Committee,

My name is Andrea Reisman, and I live in Portland. I am writing in support of HB 3512 to get toxic chemicals out of consumer products and out of the firefighting foam that's harming firefighters.

I support HB 3512 because:

- There is proven research linking PFAS to serious and deadly health conditions-- as so-called "forever chemicals" we cannot poison our current and future generations when we know better
- Children are vulnerable to these chemicals
- Firefighters are here to protect us and should not be exposed to dangerous chemicals in the line of work
- We are lucky to have abundant and wonderful drinking water and ecosystems that rely on our water sources, it's vital to protect them
- Let's be leaders in moving against PFAS chemicals for the benefit of everyone

Thank you in advance for your support of HB 3512.

Sincerely,  
Andrea  
Portland, OR
