Measure, Appointment or Topic:

HB3075

Dear Legislators,

Measure 114 is so outrageous and unconstitutional it's hard to put into words how misguided and tyrannical it is. I am 60 years old, have lived in Oregon my entire life, and been a gun owner my entire life. I took a hunter's safety class in 1975 - the 5th grade. I don't believe the supporters of this measure think that this will make any one safer from gun violence, I believe your only motivation is for control and harassment of law-abiding, responsible gun owners. Criminals will not follow this law and I'm sure there's an exception for your armed guards. You're only affecting those who respect the law by denying them their GOD-given rights. You have no right to even attempt to take them away from the people. The second amendment is clear and simple: "shall not be infringed." I am embarrassed to live in a state where our legislators think they can force a law that is clearly unconstitutional, and look forward to the day it WILL be struck down by the US Supreme Court, if not sooner. The folly and delusion of this effort is so astonishing it would be comical if it was not coming from a body that is supposed to have common-sense in looking out for the true well-being of people in Oregon.
