

Submitter:

Sarah Binns

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB2851

Expanding the definition of terrorism to target only specific groups (such as those who believe that the Palestinian people should be allowed to live in Palestine) and not the white supremacists who are currently dismantling democracy is a travesty. I strongly oppose this measure on account of human rights. Oregon legislators should be smashed of this proposal. Thank you for your time.
