Measure, Appointment or Topic: HB2851

My name is Damon Motz-Storey, and I live in Portland's Centennial Neighborhood in Oregon House District 48. I strongly oppose HB 2851 and urge lawmakers to reject it wholly. Expanding the terms under which Oregon can criminalize people with the label of terrorism is dangerous in the era of Trumpism. The Trump Administration has shown horrifying willingness to persecute political enemies under accusations of domestic terrorism. Oregon must not make it any easier for this federal government to target and abduct Oregonians as they did before in 2020 during Black Lives Matter protests in Portland. We do not need HB 2851. Please stand up to Trump and Trumpism by rejecting this ill-advised policy.
