

Submitter: Nicholas Coleman
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

I strongly oppose this bill.

It is not your right to tell me how to defend myself and by what means. Our founding fathers of this country warned against a tyrannical government that would try to take control from within, by taking away the weapons of civilians. The way I see it, my domestic government is currently the greatest threat to my freedoms by introducing legislation such as this. Taking away gun rights for law-abiding citizens will increase opportunities for criminals to take advantage of the less defended civilians, since criminals will not obey the legislation, if passed.

Please oppose HB 3075.
