

Submitter: Brittany Kleinschnitz

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure, Appointment or Topic: HB2029

Dear Chairman Nosse and Members of the House Committee on Behavioral Health and Health Care:

My name is Brittany Kleinschnitz and I am a LCSW practicing in Clackamas County, OR and serving multiple counties in the area. I have been practicing here for almost 3 years and have been working in this field in Oregon for almost 4. I am writing this letter in support of HB2029. Insurance audits are costly in time, effort, and money, and are often unfair and confusing. They create instability for clinicians and could therefore limit access to care to the people of Oregon. Please help stop this practice by supporting the move toward more common sense and equitable auditing practices.

Thank you for supporting this bill.

Sincerely,
Brittany Kleinschnitz
