Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

This is another disheartening bill that criminalizes lawful gun owners. This bill furthers the division between the major political parties and does nothing to curb unlawful gun use and violence. It's odd to me that young adults are required to have sex education and drivers education yet are not allowed to have firearms education in school. Ask yourself why that is? Is this bill's motivation to save lives or further a political ideology?
