

Submitter: ANDREW HALL
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

Hello,

I cannot believe the arrogance introduced in this bill. The fact that the legislature would write a bill that directly implies that all of the Marion County Judges are corrupt is mind boggling.

Here is a quote from this measure "Provides that a challenge to legality of the Act must be commenced in the Circuit Court for Marion County."

This is a blatant attempt to direct which courts are allowed to rule on this measure and the only thing that makes sense is the assumption that judges in Marion County would be likely to rule as political appointee's instead of an objective and fair manner.

The only reason this was included is that the power hungry politicians writing this bill are pissed off that M114 was found unconstitutional.

This line is a direct violation of the separation of powers and that alone should strike this measure from consideration.
