Measure, Appointment or Topic: HB3075

Hello, I believe HB3075 is More of A lock down for law bidding citizens. HB3075 and BM114 is not going to stop criminals from getting and using firearms to commit crimes. Yes, it's sad that there has been innocent people who have died by gun violence. but more legislation and laws to ban gun purchases and gun parts are not the answer. what we need is stiffer laws for criminals who use guns to commit crimes.
