Measure, Appointment or Topic: HB3075

I oppose HB 3075 as it is a clear infringement on the rights of Oregonians. The bill will only serve to punish law abiding owners of firearms. It will have no effect on criminals. Firearms are a fundamental right of Americans like speech, equal protection and search and seizure. There are already adequate safeguards in place to protect the public from lawful gun purchasers. This law is unconstitutional and will eventually end up overturned by the Supreme Court.
