

Submitter: Dan Wade
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3075

Dear member of the House Committee.

We are sadly here once again to unwillingly watch you push through more feel good controls that solve nothing. In the time since the injunction can you quantify how many incidents of gun violence would have been prevented? How about how many would have been prevented by those who were NOT legal and law abiding gun owners. The issue is that derive great solace and joy in depriving law abiding citizens of their freedoms.

I strongly oppose this misleading bill the same as its equally dishonest precursor 118.

* You incorrectly advise the public that "now" gun purchasers will have to get a background check. Which been the case for decades. Entirely and deliberately misleading to the public

* Magazine ban - You restrict usage of legal firearms when there are no compliant magazines manufactured. You also promote a false narrative that "standard" capacity magazines are "evil" or "dangerous". The size of the magazine does not change the safety or outcome. Violent drug dealers, gang members, felons, and other criminals do not care nor follow your feel good magazine limits. But, you already know this. This after all isn't designed to prevent crime, but rather to restrict legal gun owners.

* Permit to purchase. Implementing and expensive permit program that in the two years that you've had and you STILL haven't come up with the program parameters. Nor do you have any intention to. Your intent is to restrict and deny the rights of the People. Whether your intent is tyranny or not. It is your outcome, and you seem more that willing to push that. Also, this is NOT a permit to purchase. It is a permit to APPLY to purchase, and literally NOTHING else changes. You STILL through the EXISTING 4473 form, Oregon State Police middle man check and the FBI NICS check. Why not be honest about this?

Your goal of control, denial of a right, and cost to citizens shows that you are fine with oligarchy and deprivation of liberty. We see you.

Respectfully disgusted,

Dan Wade
