Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3075

I STRONGLY OPPOSE HB 3075 and DEMAND my CONSTITUTIONAL RIGHT TO OWN A FIREARM WITHOUT RESTRICTIONS.

Now that you have booster your egos with one-sided information, you cannot ethically say you are informed. Not one piece of information talked about the constitutional rights in the 2nd amendment, or the many law abiding citizens that were carrying that saved people in malls and elsewhere from a mass murder situation. No one talked about how more gun restrictions only hurts lawful people and will allow criminals more latitude to kill, rape, and steal.

You, dear legislators are enabling criminals, and just with this bill. You have become the ones the 2nd amendment refers to for the reason we have a right to own firearms against a government gone rogue.
